Forecast for Sunday 25 Jun 2023

Weather: Mainly dry and bright to start before clouding over by midmorning as a band of heavy rain, with a risk of becoming thundery at times, moves east in the early afternoon. This bringing stronger winds for a time but should clear by late afternoon, leaving sunnier spells behind though still a risk of isolated showers or thunderstorms following. Turning much fresher later after a warm and humid morning and early afternoon.

Chance of cloud-free hill tops above 600m: 80% or more at first, decreasing to around 30% in the band of rain and cloud, and then increasing 80% later.

Low cloud and visibility: Cloud may lower onto hills above about 400 or 500 metres temporarily during heavier bursts of rain, otherwise cloud above summits. Visibility very good to excellent post front, but decreasing to moderate or poor during heavier rain or thunderstorms.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

UV levels remaining high in the sunshine, so adequate sun protection may be required. Sudden deteriorations may occur in and around any thunderstorms or heavier bursts of rain on the active cold front with strong gusty winds at times, up to 35 mph on the summits.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
14:00 on Fri 23 Jun 2023	0.2mm	0.2mm	0.6mm

Forecast for Monday 26 Jun 2023

Weather: A fine and bright start with plenty of sunshine. Cloud bubbling up by midmorning but staying largely dry with some bright or sunny spells through the day, though with the odd shower possible through the morning. Cloud turning hazy at times with thicker higher level cloud then approaching from the west during the late evening. Feeling cooler than of late.

Maximum wind: Westerly 20 mph, gusting 25-30 mph.

Chance of cloud-free hill tops above 600m: 80%

Low cloud and visibility: Patches of low cloud first thing with bases around 500 m, these soon rising and clearing with cloud bases then above summits. Very good to excellent visibilities throughout.

Temperature: **Valleys:** Plus 14 degrees Celsius rising to plus 20 Celsius.
At 600m: Plus 14 degrees Celsius.
Freezing level: Above the summits.
